

Course Title: Confined Spaces – Management of Risk (7086)	
Duration: 1 Day	Certification: LASNTG Certification
Expiry Period: 3 Years	Award: Assessment Certificate

Aim of Programme:

The aim of the course is to provide learners with the skills, knowledge and competence to safely manage confined space entry in compliance with statutory Regulations and the Code of Practice for Working in Confined Spaces

Target Learner:

This training programme is for learners who will have worked with or have experience in Confined Spaces. The target learner is Engineers but can also include Supervisor and Technician.

Learning Outcomes:

On completion of this programme, the learner will be able to:

- Demonstrate an in-depth knowledge of the relevant legislation and correctly recognise confined spaces.
- Demonstrate an understanding of the relevant PPE, health and safety requirements and effectively carry out risk assessments.
- Demonstrate knowledge of the different gaseous atmospheres and develop safe systems of work for confined spaces.
- Demonstrate knowledge of the proper breathing apparatus and correctly use this equipment.
- Demonstrate adequate knowledge of the correct emergency and rescue procedures.

Assessment:

There is a **Theory** Assessment with Multiple Choice Questions with a Standard Pass of 70 % and 20-minutes duration

There is a **Practical** Assessment with Standard Pass of 100 % and duration is 1 hour.

Entry requirements:

- Applicants must be able to demonstrate a level of knowledge, skill and competence associated with Level 4 of the NFQ.
- It is desirable if participants are familiar with work which involves entry into confined spaces
