Common Issues Identified during Walkability Audits

- ❖ Timing of pedestrian crossing
- ❖ Dog fouling on footpaths
- ❖ Uneven surfaces/Poor Reinstatement
- ❖ Low hanging signs
- ❖ Visual clutter (line of sight)
- ❖ Lack of colour contrast
- ❖ Obstacles footpaths (e.g. shop signs)
- ❖ Lack of public seating
- ❖ Traffic Pollution
- ❖ Lack of public lighting
- ❖ Water ponding on surface of footpaths
- ❖ Overgrown landscaping / leaves on ground
- ❖ Parking

Training Lifecycle

- Training need identified(ordinarily at Training Group or through correspondence received by LASNTG Secretary or other Committee member).

- The Training group acts as gatekeeper and manages the work of the courseware group.

- Need is discussed at Training Group meeting in light of
  - Need, is it actually required.
  - Urgency is it a legal obligation etc.
  - Target audience.
  - Funding - grant funded/will leaners authorities be charged?
  - Approach to delivery(Direct or by consultant)

Training Lifecycle (contd.)

- The Training Group asks the courseware development committee to develop the specification for the training.

- The courseware group develop the specification and agree deployment techniques (Will it be sector led or consultant delivered).

- Courseware group assess whether funding is available from current funding sources to develop and rollout the training. If yes it progresses.

- If not it may recommend requesting funding from an agent to the Training Group or may ask that funding be discussed at the next training group meeting.

General Training Delivery

- Internal, local authority and external trainers
- Training providers framework for delivery of training
- Almost 400,000 person training days since establishment
- Approximately 35,000 training days per annum.
- Primary mechanism for delivery is through the 5 Regional training centres.

QQI Approved Provider

- Five LASNTG QQI Programmes are delivered through the Regional Training Centre Network:
  - Level 6 Fire Fighting Operations (Approximately 864 learners have completed at least one module to date)
  - Level 5 Water Treatment Plant Operations (over 500 learners to date)
  - Level 5 Wastewater Treatment Plant Operations (over 500 learners to date)
  - Level 6 Site Suitability Assessment for on-site Wastewater Treatment Systems (over 150 learners to date)
  - Level 5 Temporary Traffic Management Design (Level 1 & 2 Roads) and Inspection
  - Level 4 Temporary Traffic Management Operations on High Speed Roads

Collaboration with Relevant Bodies

Collaboration with Third Level Institutes

- Collaboration between LASNTG, ATU Sligo campus, Department of Transport, WERLA(Waste Enforcement Regional Lead Authorities) and Irish Water have resulted in the development and rollout of the following programmes.

- In 2022/2023 75 Local Authority Staff are studying these courses as indicated below.

  - Live Grant View(Spent, committed, Officer%)
  - Improved reporting etc.
 - First stage as we look forward to a full learner management system.
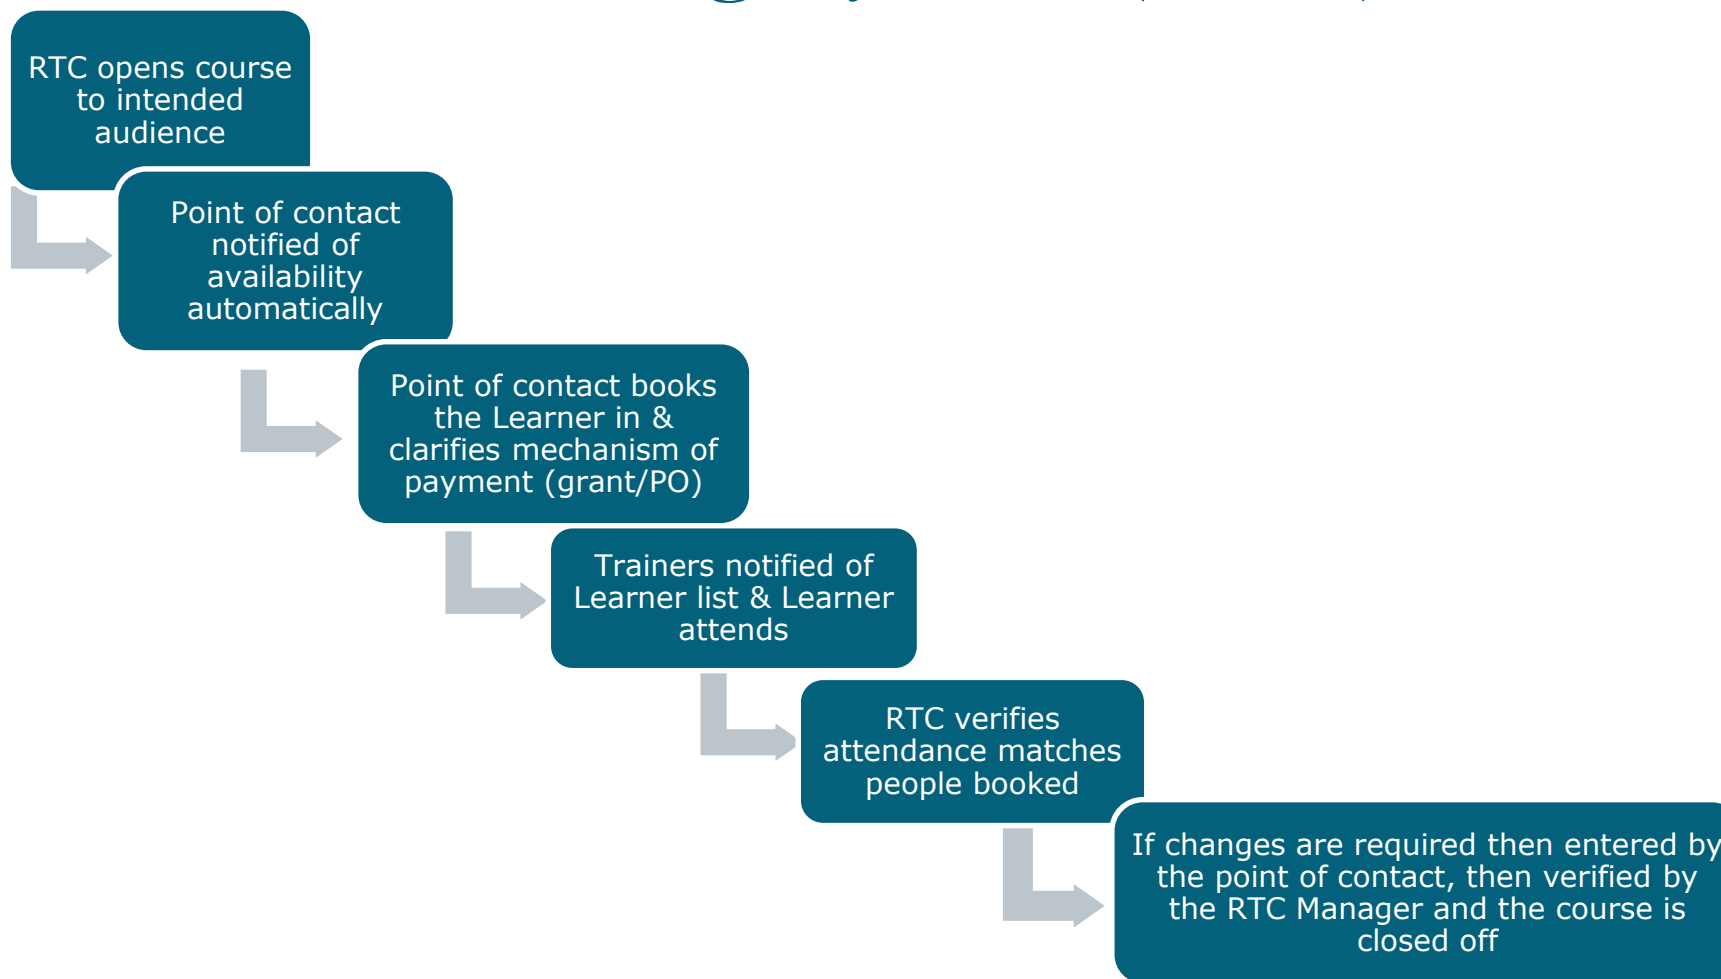

Full LMS future plans (Tender in Q1/Q2 2025)

- ❑ This will be a fully cloud based Learner Management System

- ❑ It will support
  - Online (live)
  - Online(On-demand)
  - Blended(online and in person)
  - In person (with on line quizzes)
  - Quizzes embedded in training

Full LMS future Plan (Tender in Q1/Q2 2025)

- All QQI assessments will be stored in the cloud.
- All Quality Checks(verifications, external authentication etc will be undertaken in the cloud).
- Records destroyed in accordance with Retention Policies.

Complementary Training

- Opportunity for Cross Learning.
  - Climate Action Training will crossover to Roads, Planning, Fire and Environment.
  - Planning has the potential to inform Roads Training.
- General Training Courses such as
  - Effective consultation
  - Community Engagement
- LASNTG key deliverable to look more outside a single Training Group.
- More disciplines engaged in courseware generation.
