

Course Title: Distribution System Operations and Maintenance (2082)	
Duration: 1 Day	Certification: LASNTG Certification
Expiry Period: 3 Years	Award: Attendance Certificate

Introduction:

LASNTG has developed this one-day course for those who work in Distribution System – Operations and Maintenance

Aim of Programme:

To provide basic skills and knowledge for Local Authority personnel and others engaged in the operation and maintenance of the distribution system.

Target Learner:

This training programme is for learners who will have worked with or have experience in Operations and Maintenance of Distribution Systems. Learners can be, General Operative, Technician, Engineer and Supervisor.

Learning Outcomes:

On completion of this programme, the learner will be able to:

- Demonstrate an understanding of the applicable legislation and regulations.
- Demonstrate an in-depth knowledge of the overall distribution system and the operation and maintenance of critical elements such as valves, pumps and reservoirs.
- Accurately identify quality problems in distribution systems and understand possible sources of contamination.
- Describe the processes for cleaning, scouring and disinfection of water mains and understand the correct operation of valves and hydrants.

Assessment:

There are currently no assessments required to complete this course.

Entry requirements:

- Applicants must be able to demonstrate a level of knowledge, skill and competence associated with Level 4 of the NFQ.
- It is desirable that they have worked in or are familiar with the operations of a water distribution system.

Equipment the learner must bring to the course:

- Personal protective equipment (Safety Boots / High Vis)
